## Company Overview

At North Atlantic, winner of 2017's Top 100 Employers in Atlantic Canada competition, we decided from the very beginning that our company wasn't just about our products. Our reputation, our service and our employees say so much more about who we are!!!

We've proudly served Newfoundlanders with refined products manufactured right here for almost 30 years. Think of us as the company that keeps the province warm and provides the fuel to keep it running too. NARL Refining LP is a crude oil refinery located in [Come By Chance](#) in [Newfoundland and Labrador, Canada](#). It has a refinery capacity of 130,000 barrels per day. At NARL Refining, we don't have a work force. We have a community that's more than 600 strong. Our employees come from the towns surrounding the refinery and from all over the world. They are operators, engineers, craftspeople, managers, and drivers. They are also scout leaders, education mentors, and healthcare volunteers. Our highly skilled employees transform crude oil into some of the cleanest fuels on the world market. It's a job that requires the greatest care and safety. Safety training and performance at NARL Refining is second to none – it's a culture.

NARL Refining LP is seeking a skilled Instrumentation Supervisor. Reporting to the Electrical & Instrumentation Superintendent, the Maintenance Instrumentation Supervisor will be responsible for management and execution of the instrumentation maintenance program.

### Instrumentation Supervisor

NARL Refining LP is looking to add a skilled Instrumentation Supervisor to our team.

### Responsibilities

- Supervise routine corrective, preventative, and predictive instrumentation maintenance plans and processes
- Oversee the activities related to multi-craft alignment, while maintaining and continuously improving the integrity of the site instrumentation infrastructure
- Coordinate the management of activities with other maintenance planners, supervisors, trades personnel, contractors and operations coordinators.

### Qualifications:

- Journeyman Instrumentation Technician - Min 5 years supervisory experience
- Instrumentation Certificate and or Technology Diploma
- Well organized with effective verbal & written communication skills

- Effective leadership skills
- Exemplary record in Health, Safety, and Environment is essential.
- Efficient computer skills. Experience with a CMMS (Computerized Maintenance Management System) such as Maximo or SAP, would also be considered an asset.

Competitive salary • Comprehensive Flexible Benefits including Health and Dental, life insurance Accounts  
• Short-Term and Long-Term Disability Plans • Company Pension Plan with employer matched contributions • Free Employee and Family Assistance Program • Free on-site parking • Employee appreciation events • Company shuttle from Refinery to St. John's and back daily. (Employee is responsible for transportation if bus is not operating)

North Atlantic is committed to Employment Equity. Accommodations during the recruitment process are available upon request for candidates with disabilities.
